# 关于Wiley

Wiley作为一家国际性公司，始终致力于帮助机构与个人拓展通向成功所需的知识与技能。我们提供科学、技术、医学和人文社科期刊与在线学习、评估与认证相结合的解决方案，帮助高校、研究机构、学术团体、企业、政府以及个人提高学术和专业影响力。Wiley自1807年创建至今，已拥有超过200年历史，全球总部位于美国新泽西州的霍博肯（Hoboken）。

# Wiley期刊影响力深远且广泛

在研究领域，Wiley出版的期刊无论是对研究人员发现新成果还是对作者发表研究论文都有着巨大的影响力。

广泛分布在世界各地的机构也将这些内容传递给更多的读者。

Wiley出版的跨学科内容广受世界各地读者的赞誉。

**1,600+** 种期刊

## Attention deficit hyperactivity disorder late birthdate effect common in both high and low prescribing international jurisdictions: systematic review

Martin Whitely,<sup>1</sup>  Melissa Raven,<sup>2</sup> Sami Timimi,<sup>3</sup> Jon Jureidini,<sup>2</sup> John Phillimore,<sup>1</sup> Jonathan Leo,<sup>4</sup> Joanna Moncrieff,<sup>5</sup> and Patrick Landman<sup>6</sup>

<sup>1</sup>John Curtin Institute of Public Policy, Curtin University, Bentley, WA, Australia; <sup>2</sup>Robinson Research Institute, University of Adelaide, Adelaide, SA, Australia; <sup>3</sup>Lincolnshire Partnership NHS Foundation Trust, Horizon Centre, Lincoln, UK; <sup>4</sup>Lincoln Memorial University, Harrogate, TN, USA; <sup>5</sup>Division of Psychiatry, Faculty of Brain Sciences, University College London, London, UK; <sup>6</sup>Centre de Recherche Psychanalyse, Medecine et Société, Paris, France

**Background:** Multiple studies have found that the youngest children in a classroom are at elevated risk of being diagnosed with, or medicated for, ADHD. This systematic review was conducted to investigate whether this late birthdate effect is the norm and whether the strength of effect is related to the absolute risk of being diagnosed/medicated. **Methods:** A literature search of the PubMed and ERIC databases and snowball and grey literature searching were conducted. **Results:** A total of 19 studies in 13 countries covering over 15.4 million children investigating this relationship were identified. Three other studies exploring related topics were identified. The diversity of methodologies prevented a meta-analysis. Instead a systematic review of the 22 studies was conducted. A total of 17 of the 19 studies found that the youngest children in a school year were considerably more likely to be diagnosed and/or medicated than their older classmates. Two Danish studies found either a weak or no late birth date effect. There was no consistent relationship between per-capita diagnosis or medication rates and the strength of the relative age effect, with strong effects reported in most jurisdictions with comparatively low rates. **Conclusions:** It is the norm internationally for the youngest children in a classroom to be at increased risk of being medicated for ADHD, even in jurisdictions with relatively low prescribing rates. A lack of a strong effect in Denmark may be accounted for by the common practice of academic 'redshirting', where children judged by parents as immature have a delayed school start. Redshirting may prevent and/or disguise late birthdate effects and further research is warranted. The evidence of strong late birthdate effects in jurisdictions with comparatively low diagnosis/medication rates challenges the notion that low rates indicate sound diagnostic practices. **Keywords:** ADHD; relative age; late birthdate.

Search Tips

检索技巧

You can use the Boolean operators AND (also + or &), OR and NOT (also -) within search fields. These operators must be entered in UPPERCASE to work.

If more than one term is entered, and no operators are specified, terms are searched using

phrase.

Use a question mark (?) in a search term to

character (*wom?n* finds women  
asterisk (\*) to represent zero  
or more characters. For example, *plant\** finds all  
words with that root (plant, plants, & planting)  
while *an\*mia* finds variants with one or more  
letters (anemia & anaemia). Wildcards CANNOT  
be used at the start of a search term (*\*tension*) or  
when searching for phrases in quotes (*"tobacco  
smok\*"*).

### Author Search

Author names may appear with full first names or  
just initials. Place author names in quotes to find  
a specific name and its variants. For example,  
"John Smith" finds articles by John Smith. John K

对关键词出现的  
范围进行限定

可增添至七个检索框，每个检索框中可使用布尔运算符“AND, OR, NOT”进行连接；支持通配符

so + or  
These  
operators must be entered in UPPERCASE to  
using in  
quotes. For example, *spinal cord* searches spinal  
AND cord while *"spinal cord"* finds this exact  
phrase.

**Wildcards**

Use a question mark (?) in a search term to represent a single character (*wom?n* finds women or woman). Use an asterisk (\*) to represent zero or more characters. For example, *plant\** finds all words with that root (plant, plants, & planting) while *an\*mia* finds variants with one or more letters (anemia & anaemia). Wildcards CANNOT be used at the start of a search term (*\*tension*) or when searching for phrases in quotes (*"tobacco*

- Wiley/ Wiley Online Library简介
- 高品质资源获取
- 国际期刊科技论文写作与投稿

# • 作者服务

## • 作者所需的关于文章准备、投稿、出版和推广的所有信息

- 所有期刊的投稿指南以及出版道德
- 英语语言润色及编辑支持
- 科技论文写作在线大讲堂

- 为您的研究选择合适的期刊
- 文章查重开放获取资助者合规要求
- 作者培训研讨会

- 注册ORCID ID为您的研究积累信用
- 投稿以及数据快速便捷在线出版
- 获取清晰地同行评审指导
- 作者出版培训研讨会

- 追踪您的文章
- 追踪出版流程每一步，从接收，校验以及在线订正

- 作者文章推广工具包
- 文章分享
- 评估您的科研影响力
